No longer mere speculation but a harsh reality, companies have had to go ‘on the front foot’ to help combat climate change.

Is this a knee-jerk reaction to save face or are their actions genuine?

Business Climate International is hosting a luncheon panel at the Sydney Hilton Hotel on Tuesday 26 February 2008 where the finest of guest speakers will go ‘on the front foot’ in discussing their innovations and ideas – separating ‘green’ fact from fiction.

This is an excellent opportunity for business executives and corporations to network with experts in the industry and keep abreast of all the latest developments in business sustainability in Australia and internationally.
